Special Prices

FOR

Market Gardeners, Truckers and Florists

who make their living from vegetable and flower crops and
who buy seeds in large quantities are entitled
to these **SPECIAL** prices.

THIS LIST IS FOR THEIR USE ONLY

All seeds offered in this list are the best standard varieties grown by MARKET GARDENERS, TRUCKERS and FLORISTS in the United States and Europe. PLEASE WRITE YOUR NAME, post office and shipping point plainly. Use order sheet and return in envelope.

TERMS: Cash, or satisfactory reference. Orders from unknown parties, whose financial rating is unknown must be accompanied with a draft on Chicago, or money order.

All C. O. D. orders must be accompanied by at least one-half of the amount. **ORDER EARLY,** It will be a great advantage to both customers and ourselves if orders are sent us as early as possible.

WE MAKE NO CHARGES for packing and cartage. Prices in this catalog are based on buyer paying postage, express and freight charges, with the exception of vegetable seeds in packets, ounces and one-quarter pounds. We pay postage on all flower seeds. Bulbs are shipped at purchaser's expense.

SPECIAL FREE DELIVERY

We will prepay delivery charges to your express office or freight station, if your order for garden seed amounts to \$10.00 or over for small seeds at prices quoted in this catalog. (This does not include Peas, Beans, Corn or Seed Potatoes.) Cash must accompany order. If your order amounts to \$10.00 for small seeds and you order \$10.00 worth of Corn, Peas, or Beans, total of orders \$20.00 we will prepay delivery charges to you.

If you want seeds shipped by Parcel Post, consult the Domestic Parcel Post rates given below. Your postmaster will tell you the Parcel Post Zone in which your postoffice is located, measuring from Chicago.

Please remember that our tested, tried, quality seeds are as near to you as your mail box. 1,339 Mail and Express Trains arrive and depart from Chicago railway stations daily.

QUALITY SEED & BULB CO.

SEED POTATOES

Our seed potatoes are carefully grown for seed purposes only.

Insure your Potato crop this season by planting Q. S. & B. Co's true to name Seed Potatoes.

We deliver all Potatoes F. O. B. Cars, Chicago, and they are shipped at purchaser's risk, prices subject to market changes without notice. Write for special prices on 10 to 25 barrels.

One-quarter bushel cut tubers will plant 125 hills. Ten bushels will plant one acre. One sack or barrel of Seed Potatoes, contains 165 pounds. One bushel weighs sixty pounds.

We ship as soon as danger of frost is over. If wanted shipped in barrels, add 50 cents per barrel to prices quoted. If wanted in paper lined barrels, add \$1.00 to price quoted.

EARLY ROSE—A good sized early variety with a pinkish white skin and of excellent quality.

EARLY OHIO RED-RIVER—Skin bright pink, flesh white. No waste in digging or peeling. Our Red River strain matures two weeks earlier than Ohios grown farther south.

IRISH COBBLER—Round, pure white and very early and of the very best quality. Very popular with market gardeners.

EARLY SIX WEEKS—Of the Ohio type and a very early variety. A fine potato for southern truckers. The tubers begin to form when the vines are 5 to 6 inches high and in seven to eight weeks the potatoes are of marketable size.

TRIUMPH—From seven to ten days earlier than the Ohio. Commands a higher price than other varieties among potato buyers. Good size, square at the ends. Skin is red, flesh very white and firm. Very productive.

RURAL NEW YORKER—Always solid and smooth, making a handsome appearance on the market. Bring top prices in the West.

CARMAN No. 3—Seems to be drought, disease and bug proof. Always found on lists of best varieties. We offer a select strain of this standard late variety.

BURBANK—One of the best known late varieties. Flesh white, mealy, fine flavor and large tubers. It is a big yielder and does well on heavy soils.

HARDY PRIVET IDEAL FOR HEDGES

(Ligustrum Amurense)

A well known, hardy hedge plant and by many recognized as the ideal plant for natural fences. It is a remarkably vigorous grower; thrives in any kind of soil and situation. In the shade, around railroad stations, smoky factories—good for seashore planting. We cannot recommend it too highly. Form is compact and regular, wax-like foliage, is seldom troubled with insects and will withstand pruning all season. Plant 8 to 12 inches apart. Our plants are thrifty, well rooted and hardy. We make a specialty of two varieties, which are listed below.

AMUR or AMERICAN PRIVET—Growth upright, can be trimmed throughout the season. 1 to 1½ ft., 35c; 2½ to 3 ft., 50c each.

IBOTA or JAPANESE—Similar to above, except that it has a more spreading growth, bears white flowers in summer and black berries in fall. 1 to 1½ feet, 35c; 2½ to 3 ft., 50c.

Hardy Vines and Climbers

BIGNONIA, Scarlet Trumpet Vine—Dark red flowers in July; coarse vine. Each, 50c; extra heavy, 75c.

BITTERSWEET, *Celastrus Scandens*—A native climbing vine with large handsome leaves. Red and yellow capsules all winter. Price, each, 75c.

CLEMATIS—**CULTURAL DIRECTIONS**—Most important for Clematis in rich and deep soil. New plants should have firm supports on which to climb. They should be tied to the supports as soon as they have made a few inches of growth. If allowed to be blown back and forth by the wind, the outer bark will split, and the plant is likely to die. Do not plant too close to a house where the soil is usually poor, full of brick and mortar—in this case use at least a full barrow of the finest, choicest soil. Plants can be easily grown if directions are carefully followed.

CLEMATIS, **JACKMANII**—Well known variety, bears great wreaths and clusters of purple flowers. Blossoms 5 to 6 inches in diameter. 2-year plants, 75c; 3-year plants, \$1.00.

GRASS and FIELD SEEDS

HENDRIK'S REAL GREEN LAWN SEED USED HERE

The essentials for a fine lawn are: First, a rich, well drained soil; second, careful preparation of the ground, making it as fine, smooth and mellow as possible; third, a wise selection of seeds; fourth, sowing in time to give the young plants a chance to become well established before being subjected to dry or cold weather or to the direct rays of the hot summer sun. It may be planted early in spring or fall and should be sown at the rate of sixty to one hundred pounds per acre; much more is required than for hay or pasture. If sown in the spring, sow as early as possible.
